

Press release

Bucharest, 1 November 2018

SN Nuclearelectrica SA (“SNN”) announces that Cernavoda NPP Unit 1 will operate, starting with 08 :00 hours, on November 2nd 2018, at a reduced power, in order to perform repair works at a tank related to the turbogenerator group (the classical part of the power plant).

Cernavoda NPP Unit 1 will operate at a reduced power of about 500 MW, as the repair works can only be performed with the reactor at a reduced power.

The controlled power reduction and the repair works will be performed under full safety conditions and in compliance with the specific procedures of the power plant.
